

Collect and graph  
4-6 data points

Examine trendline  
in relation to the  
goal line

Increase the goal

Trend line steeper than goal line

Trend line flatter than goal line.

Trend line even with goal line

Consider if the  
intervention was  
given as  
intended

NO

YES

Improve  
fidelity

Change instruction  
following Project STAIR  
adaptation procedures

Continue as is  
\*observe trend weekly to  
watch for drastic changes  
that may require a  
decision sooner

STAIR Tailored

**\*\*Others considerations  
may be to decrease  
intervention dosage or  
introduce a more complex  
skill.**

**\*\*Watch for drastic  
changes that may require  
a decision sooner**

**\*\*Following  
STAIR  
adaption  
procedures**
